Portfolio: nikhilesh273.github.io/nikhilesh-portfolios/

PROFESSIONAL SUMMARY

Java Backend Developer with 4+ years of professional experience across e-commerce, order management, EdTech, HR management, and hospitality applications. Experienced in Spring Boot microservices, REST API development, third-party integrations, Kafka-based event processing, and PostgreSQL and MongoDB troubleshooting. Hands-on experience migrating backend services from GCP to Azure and automating deployments with AWS, Docker, Jenkins, and GitHub Actions. Additional backend development experience with Python and FastAPI.

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript

Backend and Security: Spring Boot, Spring Security, Spring Cloud, Hibernate, JPA, REST APIs, JWT authentication and authorization

Architecture and Messaging: Microservices, Apache Kafka, event-driven architecture, Eureka Server, API Gateway

Databases: PostgreSQL, MySQL, MongoDB, schema design, indexing, query optimization

Cloud and Delivery: AWS, Azure, GCP, Docker, Jenkins, GitHub Actions, CI/CD, cloud migration

Tools and Frontend: Git, Maven, Gradle, Postman, Jira, Agile/Scrum, React, Next.js

PROFESSIONAL EXPERIENCE

Ilmora AI Solutions | Software Developer

Apr 2026 - Present | Calicut, Kerala

- Develop backend services and REST APIs for hotel-booking and learning-management applications using Java and Spring Boot
- Implement booking, authentication, inventory, and administration workflows with PostgreSQL-backed data access, including Razorpay payment initiation, verification, and booking payment-status updates.
- Design database schemas and optimize queries to support application workflows and data retrieval.
- Integrate backend APIs with Next.js interfaces and automate AWS deployments using Docker and GitHub Actions.

Storilabs System Technologies | Software Developer

Feb 2023 - Oct 2025 | Calicut, Kerala

- Developed and maintained Spring Boot microservices for e-commerce and order-management platforms, including UK-based meal-delivery businesses.
- Integrated Shopify, Amazon, and ShopWired with backend services using Apache Kafka for asynchronous event processing.
- Migrated core backend services from GCP to Azure while preserving data integrity and limiting production disruption.
- Optimized cart and checkout services to improve transaction processing and API response times.
- Resolved production issues across Java services, MongoDB, and PostgreSQL; maintained Jenkins build and deployment pipelines.

PROFESSIONAL EXPERIENCE CONTINUED

uviQo Technologies | Software Developer

Sep 2021 - Feb 2023 | Trivandrum, Kerala

- Developed SaaS education and HR management applications using Java backend services and Angular interfaces.
- Built modular microservices and reusable Java libraries to reduce duplicated code across services.
- Implemented group-management and examination modules for an EdTech platform.
- Created CI/CD pipelines with AWS and Docker to support application deployment.

SELECTED PROJECTS

E commerce and Order Management Platform

Domain: E-commerce and meal delivery | Storilabs System Technologies

- Built Spring Boot services supporting cart, checkout, and order-management workflows for enterprise clients.
- Connected Shopify, Amazon, and ShopWired integrations through Kafka-based asynchronous processing.
- Supported the GCP-to-Azure backend migration, database troubleshooting, and Jenkins deployment automation.

Hotel Booking Platform

Domain: Hospitality | Ilmora AI Solutions

- Developed backend workflows for hotel search, room availability, bookings, authentication, and administration.
- Implemented PostgreSQL-backed APIs and integrated them with a Next.js frontend for guest and administrative workflows.
- Supported containerized deployment on AWS using Docker and GitHub Actions.

HIREQ HR Microservices Platform

Domain: Human resources | Java 11, Spring Boot, Spring Security, JPA, PostgreSQL, AWS

- Developed REST APIs for HR workflows and secured access with Spring Security authentication and authorization.
- Implemented service discovery with Eureka Server and request routing through API Gateway.
- Deployed PostgreSQL-backed microservices on AWS.

Education and Learning Management Applications

Domain: EdTech and SaaS | uviQo Technologies and Ilmora AI Solutions

- Built group-management and examination modules for the uviQo education platform using Java services and Angular interfaces.
- Contribute to learning-management application development at Ilmora, including backend services and frontend API integration.

EDUCATION

Bachelor of Science in Computer Science

PKKM College of Applied Science (IHRD), Wayanad, Kerala

Kannur University

CERTIFICATIONS

[Master Microservices with Spring Boot and Spring Cloud](#) - Udemy

Java and SQL Certifications - HackerRank
